Education

Bachelor of Technology (B.Tech) in Computer Science

St. Joseph's College of Engineering and technology, Palai

Expected Graduation: 2028

Technical Skills

- HTML
- CSS
- JavaScript
- React
- Python
- Git
- GitHub

Projects

React Tic-Tac-Toe

Built a Tic-Tac-Toe game using React, implementing component-based architecture and state management.

JavaScript Image Gallery

Created an interactive image gallery using JavaScript, DOM manipulation, and event handling.

Bouncing Balls

Developed an animated browser-based project demonstrating JavaScript objects, animation, and canvas interactions.

Silly Story Generator

Built a random story generator using JavaScript functions, conditionals, and user input.

Areas of Interest

- Web Development
- Artificial Intelligence
- Software Development
- Problem Solving

Profile

Computer Science student actively learning modern web development technologies and building projects using HTML, CSS, JavaScript, React, and Python. Interested in creating practical applications and expanding knowledge in web development and AI.
